Summer School: Differential Geometry and Supersymmetry

ZEIT:
10.9.2012 - 14.9.2012

ORT:
Universität Hamburg
Edmund-Siemers-Allee 1
20146 Hamburg

The purpose of this summer school is to bring together advanced students (Master's and graduate) and postdocs, of Mathematics and theoretical Physics, in the framework of four minicourses on topics of common interest.
Each of the four minicourses will consist of both lectures and exercise/discussion sessions. Topics are:

- G-Structures (Dmitri Alekseevsky)
- Supergeometry (Anton Galaev)
- Foliations (Dirk Töben)
- Supersymmetric Field Theories (Antoine van Proeyen)
