

Tagung 41st International Symposium Ahrenshoop on the Theory of Elementary Particles: "Recent Developments in String and Field Theory"

ZEIT:

26.8.2012 - 30.8.2012

ORT:

Akademie Berlin-Schmöckwitz
Wernsdorfer Straße 43
D-12527 Berlin

The conference is devoted to various topics related to recent developments in string theory and field theory, including string-gauge theory correspondences, cosmological aspects, black holes, supersymmetric field theories, conformal field theories, integrable models, phenomenological aspects.

We would like to bring together some of the leading experts in the field. The program will consist of a few pedagogical overview talks plus several more specific seminars.

We expect about 60-70 participants.
